An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps Illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin tores do not absorb impurities into the blood, causing ill health, while the bores in the ten yards of bowels do. Men and women are urged to drink soch morning, before breakfast a class of hot water with a teaspoonful fy limestone phosphate in it, as a tarmless means of helping to wash from the stomach, liver, kidneys and lowels the previous day's indigestible naterial, poisons, sour bile and toxins; hus cleansing, sweetening and puriying the entire alimentary canal before putting more food into the stomach.

Orpheum Theatre.

In the town court Wednesday morning, Judge Woodward sentenced Maurice Carey, who was arrested in Willimantic, to serve 30 days in jail and to pay a fine of \$25 and costs of prosecution. Carey was brought back to this town by Deputy Sheriff Charles E. Ayer to answer to a charge of jumping a board bill at the Kennedy hotel in Dayville. Carey came there in June of last year and remained to November without paying any board, Landlord Kennedy taking it for granted that Mrs. Kennedy had been receiving the weekly payments, while Mrs. Kennedy was under the impression that Mr. Carey was paying his board to her husband. When Carey's attention was called to the requirement of paying for his keep he begun to do so, but left one night without paying all of his back board.

Sheriff Ayer, at Carey's request, visited several persons that Carey believed would help him out in his trouble, but the sheriff says they all decilined to do so, so Carey was taken to jail.

Frauds About the State of Whom Chamber of Commerce Warns the

Through an arrangement with the secretaries of commerce chambers all over the state, organized as the Connecticut Association of Commercial and Civic Executives, the local office receives much confidential informa-tion as to fraudulent and unworthy soliciting schemes. As there are always people out begging for charity, or selling things they misrepresent, it is well to be careful. In dealing with strangers in such matters, Putnam people are advised to find out something about them before contributing.

Traveling photographers are working Connecticut, taking interiors. Interior views of manufacturers doing an export business seem to be the real

result of illness, are shut out of their former trade on that account. They solicit help to learn linotyping. This is quite profitable if followed long enough.

Another man is offering hosiery at a bargain, for future delivery. Com-plaint is made that the stockings never come. A certain company selling stock at \$1 per share is worthy of attention, (by the authorities). Almost any attempt to solicit funds for an orphanage, day nursery, or the like, is worth investigating. Persons approached are advised to call up the Chamber of Commerce. Some such schemes have been shown to be absolutely fraudulent. Some magazines are published, occasionally, for the mere purpose of selling "subscriptions" and no copies are sent.
